ISUZU ENGINE DISTRIBUTOR VISITED AND COOPERATED WITH SBM.

On the morning of March 19, 2024, at SBM's head office, SBM's managing director MR TRAN THANH TRONG met with the managing director of BSN MOTOR TECHNOLOGY, who is also the Distributor of ISUZU brand diesel engines used for small capacity generators ranging from 20-100 KVA.

The ISUZU engines supplied by BSN are the latest generation, electronically controlled, and

highly suitable for SBMPOWER 20-100 KVA generators, making them ideal for civil projects due to their outstanding advantages, such as competitive pricing, quiet operation, low fuel consumption, and environmental friendliness.

SBM and BSN MOTOR strive to maintain producing approximately 100 ISUZU engines per year and ensure prompt warranty service by storing spare parts at SBM.
