SBM ACCOMPLISHES THE CONTRACT OF PRODUCING-ASSEMBLY, SUPPLY AND INSTALLATION A 2200 KVA STANDBY GENERATOR SYSTEM FOR BINH DUONG PROVINCE POLICE TO ENSURE SECURITY.

After 55 days of endless effort, on December 12, 2023, SBM has successfully fulfilled the contract for producing - assembling, supplying and installing a 2200 KVA standby generator system, which aids Binh Duong Province Police in ensuring security. The project includes a SB MPOWER®

TP2200S generator set with a capacity of 2200 KVA, equipped with a sound proof and 3200A automatic transfer system with ACBs, a dynamic cabling system using CVX3000MM2 cable and fuel tank.

The project's main equipment is imported from Europe, while the integrated equipment is directly operated and tested by VINACONTROL. The TP2200S generators will greatly support Binh Duong Provincial Police in commanding and controlling tasks, as well as ensuring security.

Production-assembly combination by SBM, meeting the Vietnam National standard 9729:2013.ATS uses MITSUBISHI air circuit breakers(ACB) from Japan; LEROY SOMER LSA

52.3S6 alternator from France; PERKINS 4016 TAG2A engine from UK; Maximum capacity 2200KVA, 400/230V, 1500VP/, 50HZ.Main parameters: model TP2200S.
